# QUESTIONS AND ANSWERS

**The Miraculous Benefits  
And Advantages  
Of The  
Vapor Mate™ System ...**

■ **Smoke Indoors Or Out; Indulge Your Joy Of Smoking Anywhere**

■ **No Tar Or Tobacco; None Of The More Than 4,000 Caustic Chemicals Found In Tobacco & Tobacco Smoke**

■ **Real Smoking Pleasure; Maintain The Hand To Mouth Routine And The Social Expression You Enjoy**

■ **Pure NICOTINE Cartridge Provides Smoker's "Rush" And Energy; Real Tobacco Flavor**

*Question: How does the Vapor Mate™ System work?*

**Answer:** First, the *Vapor Mate™ System* is the premier alternate smoking method on the market, and features a distinct advantage over cigarettes. It contains NO tobacco and therefore it has NONE of the more than 4,000 dangerous chemicals and substances found in tobacco and tobacco smoke, including at least 60 known or suspected carcinogens.

*Vapor Mate™* is truly an all-in-one smoking system, and as soon as you receive delivery, you will be able to enjoy a delicious and satisfying smoking experience. Everything is included, starting with the revolutionary and ingenious *E-Cigarette*, which is truly a marvel of scientific ingenuity and breakthrough.

The *E-Cigarette* looks like a cigarette and smokes like a cigarette. Equipped within its stainless steel shell is an inhalation cartridge which delivers real NICOTINE to give you that true smoker's rush and deep stimulation of a tobacco cigarette, even the robust flavor and taste of tobacco — but it contains NO tobacco or tobacco substances. The *E-Cigarette* also features a built-in atomizer, a micro-computer battery and an indicator light at the very tip which illuminates just like a lit cigarette.

The complete system comes with a USB charger to recharge the lithium battery when needed, plus 20 Nicotine Filterette™ cartridges for long-lasting smoking pleasure. Each cartridge provides approximately 400 smoke mouthfuls, equivalent to a pack and a half of traditional smokes — all without the tobacco!

*Question: With the Vapor Mate™ System, can I smoke anywhere I desire?*

**Answer:** YES. In many parts of the world, public smoking — such as in restaurants and lounges, airports, casinos, work environments, transportation hubs, etc., has been banned due to the serious health dangers associated with tobacco and tobacco smoke.

With the *Vapor Mate™ System*, there is NO tobacco and therefore NO tobacco smoke. Thus you are offending no one by smoking the *E-Cigarette*. Each draw you take from the *E-Cigarette* gives you the deep satisfaction and therapeutic stimulation you treasure from nicotine, *plus* the true pleasure of tobacco taste without tobacco. You "exhale" what looks like authentic cigarette smoke but it is actually nothing but harmless water vapor which contains no foreign chemicals or substances whatsoever.

There is no mess, no odor, no flame, no ashes, no tar and no second hand smoke. The beauty of the *Vapor Mate™ System* is that you are literally simulating the smoking experience — without the toxic effects of tobacco and tobacco smoke. Therefore, you are free to indulge your habit whenever and wherever you choose — at home or work, in your car, airports, hotels, restaurants, bars, casinos, public transportation, in the middle of crowds or by yourself. This is a 100% legal alternative.

*Question: If I am trying to cut down on smoking, or if I am trying to quit altogether, will the Vapor Mate™ System help?*

**Answer:** Absolutely! Remember, one of the most important aspects of the *Vapor Mate™ System* is that you are eliminating over 4,000 dangerous chemicals found in tobacco and tobacco smoke, including some 60 substances which are either suspected or KNOWN cancer agents.

*Vapor Mate's™* remarkable *E-Cigarette* contains a pure nicotine cartridge which provides the "buzz," the stimulation and energy of smoking, plus the oral satisfaction and the therapeutic calming influence of a conventional cigarette. You are holding a realistic cigarette in your hands, the size, the shape, the movement between your fingers and your lips, the behavioral routine and the social expression. Everything is the same as smoking a tobacco cigarette. However, as you cut down, the nicotine cartridge will protect you from enduring horrifying physical and mental withdrawal, and at the same time you will be able to retain the comfortable hand-to-mouth "habit" of smoking. This is an extremely important benefit not accessible with the patch, gum, or hypnosis.

*Question: How old do I have to be to order and benefit from the Vapor Mate™ System?*

**Answer:** You must be at least eighteen (18) years of age to order the revolutionary *Vapor Mate™ System*.

*Question: Does tobacco and tobacco smoke really cause the level of harm that scientific reports indicate?*

**Answer:** Unfortunately, yes. Tobacco is filled with harmful substances that have been demonstrated conclusively to create serious health problems.

CANCERS of the lips, mouth, throat, larynx, lungs, esophagus, liver, kidneys, bladder, stomach, pancreas, colon, cervix and leukemia have all been linked directly to tobacco. Blindness from macular degeneration, stroke, heart disease, emphysema, diabetes, osteoporosis, impotence, infertility, wrinkles and premature aging, gangrene in the legs, a weakened immune system — all of these heart-wrenching diseases and maladies are dramatically impacted by tobacco use.

*Passive smoke* includes a complex mixture of chemicals generated from the smoking and burning of tobacco. The second-hand non-smoker is the innocent victim of "sidestream" smoke that originates from the tip of a burning cigarette, as well as "mainstream" smoke inhaled and then exhaled by the smoker. Passive non-smokers have a 20 to 30 percent *increased* risk of lung cancer, and an added 23 percent risk of heart disease, according to the World Health Organization. Children are highly vulnerable to adult second-hand smoke. Negative health aspects include pneumonia and bronchitis, wheezing and exacerbation of asthma, middle ear disease, and possibly neuro-behavioral impairment and cardiovascular disease in adulthood. None of these tobacco-influenced health atrocities can be linked to the *Vapor Mate™ System*, because *Vapor Mate™* is 100% free of tobacco and thus tobacco smoke.

*Question: Is Vapor Mate™ available in retail stores or at portable kiosk locations in shopping centers?*

**Answer:** Currently, *Vapor Mate™* is not available in stores and is NOT sold through gypsy kiosk locations. Please keep in mind — inventions and breakthroughs such as the *Vapor Mate™ System* naturally give rise to a myriad of inferior, copycat knockoff products which ultimately deliver substandard performance and generate negative response from disappointed consumers.

Worse, when these knockoff brands are purchased from transient kiosk operators, any guarantee or promise of satisfaction is often a baseless pledge due to the gypsy movement, attrition and liquidation of the kiosk.

On the other hand, much time and considerable expense was put into this correspondence which you now hold. The *Vapor Mate™* reputation of quality and reliability is solid and unsurpassed, and customer satisfaction is paramount and unconditionally guaranteed. With *Vapor Mate™*, you will enjoy the best alternate smoking method available. Order today RISK-FREE!
