PUBLIC NOTICE

Introducing the revolutionary, ultrasonic **ERADICATOR-365™** — a remarkable electronic anti-pest device that you simply plug into your wall to effectively rid all indoor spaces of rodents and insects.

By: Knut Larsen
(Special Features Writer)

They silently slip into your home at dusk, in the dark of the night or before dawn. Through the tiniest opening in your attic or cellar. A crack in your foundation, smaller than a silver dollar. Once inside, they are quiet intruders, preferring to stay out of sight, moving quickly to avoid detection. Sneaking around through open doors, hiding behind walls and under furniture.

These burglars are not interested in stealing your diamonds and jewelry. They want to move in permanently and take over your house. Drink your water. Eat your food. Re-arrange your insulation to make a soft bed. Expand their family. And dirty things up with their filthy hygiene. Saliva, vomit, urine, feces — they'll use the bathroom wherever it suits them. On your kitchen floor. Cabinets. Countertops. Stove top. On plates, cups, utensils. Maybe even on the apple or bread or jam you left out overnight. Their manners are atrocious. And they'll bring their *diseases* too.

RATS. MICE. ROACHES. ANTS. FLEAS. SQUIRRELS. PESTS!

In the Middle Ages in Europe, between 1346-53, the bubonic plague wiped out 30-60% of the entire population — an estimated 75 to 200 million people. The cause of the disease was a flea bite, but the true reservoir of the bubonic plague came from rats infested by fleas. Make no mistake about it. Even today, mice and rats carry fleas . . . and if these rodents or

THEY FEED. THEY BREED. AND THEY TRANSMIT DISEASE! Your home may be your personal sanctuary, your safe place and refuge. But no matter how meticulous and clean it is, there are intruders who want to sneak in. *Rats, mice, squirrels, ants, cockroaches and other pests* seek food and shelter, and they can infest your home quickly — without warning. (*Inconspicuous rat urine is responsible for spreading a bacterial disease called Leptospirosis, which can result in liver and kidney damage. Complications may include liver and renal failure, and cardiovascular problems.*) Rats and mice breed quickly! A female rat comes into heat all year long, every 4 or 5 days, and the average litter produces 10-12 offspring. Urine, feces, saliva — the scurrying sound of clawed feet racing through your cabinets . . . emboldened rats can savagely bite or scratch you or your children or grandchildren. Why risk your own safety by using harmful poisons, chemicals, or even traps? There is a guaranteed and superior way to get rid of pests . . . a PERMANENT way. The revolutionary **ERADICATOR-365™** is now available, and pests simply cannot tolerate the electromagnetic waves it emits. They leave for good — GONE FOREVER FROM YOUR HOME!

squirrels make it inside your home — they will bring fleas with them. Exposure to rat infected feces, urine or bites is directly associated with the following diseases: *Hantavirus Pulmonary Syndrome, Leptospirosis, Rat-bite Fever and Salmonellosis*. Indirectly, rats are hosts to insects which can then transmit the following diseases to humans . . . *Plague, Colorado Tick Fever and Cutaneous Leishmaniasis*.

High-Intensity Ultrasonic Sound Waves Drive Away Pests Fast . . . Yet The Piercing Noise Is Out Of The Range Of Human Hearing And Household Pets!

The **ERADICATOR-365™** emits high-impact ultrasonic waves, up to 135 decibels of unmanageable sound pressure which attacks the auditory and nervous systems of common pests, driving them away. It is so disconcerting to pests that they will give up their source of food, water and shelter and move away — yet the sound is imperceptible to the human ear and to household pets.

PLATE A: Sophisticated, electronic, portable . . . the advanced **ERADICATOR-365™** is perfect for home use, restaurants, garages, cellars, workplaces, basements . . . all indoor areas. This is an unprecedented invention — 100% safe and guaranteed to naturally drive away pests. No need to clean up rotting, dead carcasses or unsanitary insect debris.

PLATE B: The multi-function **ERADICATOR-365™** blasts out ultrasonic waves in the frequency range of 25000 – 65000 Hz, and also pressure waves. The ultrasonic waves are ever-changing and are emitted via two speakers — the pressure waves emanate from a separate transducer. Rats, mice, squirrels, cockroaches, fleas, ants, crickets, silverfish . . . hiding in attics and behind walls . . . they cannot take the constant bombarding noise. They leave and do not return. Each unit covers an unobstructed range of up to 545 square meters.

Conventional Poisons, Chemicals And Traps May Be Hazardous To Your Health. Now There Is A Better Way To Rid All Of Your Indoor Spaces Of Rodent And Insect Pests . . .

INTRODUCING THE **ERADICATOR-365™**

Laboratory research has demonstrated that ultrasonic sound waves *attack* the auditory and nervous systems of the most common rodent pests and insects . . . rats, mice, squirrels, cockroaches, ants, fleas, crickets, silverfish . . . causing them such pain and discomfort that they exit the area and abandon food. Completely unable to tolerate the distress and shrill, unregulated siren-like sound produced by the pulsating waves.

The **ERADICATOR-365™** has incorporated this exact ultrasonic science into a highly advanced, portable electronic system, delivering up to 135 decibels of sound pressure to drive away pests without chemicals, poisons or traps. And without the messy, toxic situation of cleaning up rotting insects or trying to locate the smelly carcass of a dead rat or mice behind a wall or in the darkest corner or recess of your attic or cellar.

4 FUNCTIONS AND 360 DEGREES OF WHOLE HOME COVERAGE!

The **ERADICATOR-365™** is lightweight and versatile. Nothing stops the powerful, unrelenting electromagnetic waves — not furniture or walls. This breakthrough invention even penetrates *ceilings* to provide

continuous protection against invading pests 24 hours a day, 7 days a week — all year long.

It features four functions which effectively “patrol” an unobstructed indoor range of almost 6,000 sq. feet (545 sq. meters), allowing you to pinpoint the specific pest you wish to eliminate.

ULTRA: Switch to this mode to project ultrasonic attack waves from a dual speaker system which successfully repels rats, mice, roaches, fleas, crickets, ants, etc.

TRANS: Intermittent pressure waves emanate from the transducer system when this mode is selected to expel squirrels from any indoor space.

DUO: This mode produces both ultrasonic and pressure waves from the dual speakers and the transducer, providing ultrasonic sound in the frequency range of 25000 – 65000 Hz to send pests scurrying away.

TEST: Switch to this mode to make sure the system is operational; when in this mode, the **ERADICATOR-365™** will shift its output mode into the audible range of human beings so that you will know the device is working properly.

There is no mess involved when you employ the **ERADICATOR-365™**. No stress or worry of kids or grandchildren accidentally swallowing chemicals or poisons, or of tragically breaking a bone in their hands or fingers or toes by setting off a powerful rat trap. Moreover, this is a cruelty-free system, permanently expelling pests without killing them or touching them — and without any unsanitary cleanup or residual chemical spillover.

100% Guaranteed To Rid ALL PESTS From ANY Indoor Space!

Homes, apartments, restaurants, basements, garages, schools, attics, all workplaces — simply plug the **ERADICATOR-365™** into any electrical outlet, set the multi-function mode to the wave pattern you desire . . . and prepare to *eliminate* all pests from the area. It's that simple!

The **ERADICATOR-365™** sound waves are not within the audible hearing range of household pets or humans, so the device will not interfere with your family in any way. This is a complete system — nothing more to buy, no expensive add-ons or supplementary components. It comes complete with its own power adapter and full instructions.

100% GUARANTEED TO WORK. Set up the **ERADICATOR-365™** anywhere indoors. Its lightweight, compact portable size enables you to place it inconspicuously wherever convenient . . . in your kitchen, tabletop, bedroom, basement. Remember, once activated, the **ERADICATOR-365™** will effectively cover an area upwards of 6,000 sq. feet (approximately 545 sq. meters).

This breakthrough invention is guaranteed to expel pests from your home and keep them away, forever. But you be the judge. Try the **ERADICATOR-365™** in your own home for 60 days. Enjoy a pest-free environment. Prove the remarkable results to yourself. Witness them. If for any reason you do not agree that this is the finest pest-removal system you have ever experienced, simply return the **ERADICATOR-365™** for a 100% refund of your purchase price. No questions asked. There is nothing more worrisome or revolting than the infestation of unwanted pests. Fortunately, now you can eliminate this burden forever, and live peacefully in your own personal sanctuary. Order today!

WARNING: Rodents and pests such as rats, mice, and cockroaches spread disease through bites, scratches, feces, urine, saliva or by second-hand transmission via parasites.

The German Cockroach (scientific name *Blattella germanica*) is the most common cockroach in the world. It can survive several months without food and up to 2 weeks without water.

Fossil evidence indicates cockroaches have existed on Earth for more than 300 million years. One female German cockroach and her offspring can produce up to 300,000 new progeny (cockroaches) in a single year. It is noted cockroaches survived the nuclear blast at Hiroshima. The only way to permanently drive them away is by upsetting their auditory and nervous systems. This is the precise mode of action of the **ERADICATOR-365™**.

If you see a cockroach in your home, chances are there are many more hiding, mating and reproducing. Quite disturbingly, cockroaches are proven or suspected carriers of organisms that cause the following infections: *Salmonellosis, Typhoid Fever, Cholera, Gastroenteritis, Dysentery, Leprosy, Plague, Campylobacteriosis, Listeriosis and Giardia*. Cockroaches can also trigger asthma and other allergies, and spread *E.coli, Staphylococcus aureus* and *Streptococcus*. Isn't it time you made sure this invasive pest was banned from your home permanently? Now you can, with the amazing **ERADICATOR 365™**, a year round, plug-in electronic pest control system that provides whole-home coverage!

360 degree directional coverage effectively protects an unobstructed range of almost 6,000 sq. feet (approximately 545 sq. meters).

- Works year round, 24 hours a day, 7 days week.
- Penetrates furniture, walls — even ceilings with ease.
- No chemicals needed. No touch. No kill. No mess. Non-toxic.
- Ideal for home use, office, garage, basement, restaurant, apartment, school or any indoor area. Safe for children and pets. Will not interfere with televisions or any electronic equipment, including pacemakers.

"No More Mice . . . It's Incredible!"

"As soon as we plugged in the **ERADICATOR-365**, no more mice running around! It's incredible. First my wife spent \$600.00 for pest control people and their applications, and it did nothing. We used to have mice in the pantry and invading the kitchen all the time, with their droppings everywhere. Now I have reclaimed my house. Thank you. This system really works!" — Roger W.

Power adapter included

SPECIAL ORDER COUPON FOR THE 100% GUARANTEED

- Safe for pets
- Protect your children & grandchildren!

YES, I want a safe, pest-free home. Rush me the **ERADICATOR-365™ :**

I don't want to take any chances with disease-transmitting rats, mice, squirrels, cockroaches and other pests invading and breeding inside my home — their saliva, urine and feces scattered in my cabinets and infecting my drawers and countertops. Please rush me the **ERADICATOR-365™** as indicated below.

I understand each **ERADICATOR-365™** protects an unobstructed indoor area of almost 6,000 sq. feet (approximately 545 sq. meters) and can be plugged into any electrical outlet for year-round service. Power adapter included. The **ERADICATOR-365™** is super powerful yet the ultrasonic waves are not within the range of human hearing or household pets. The **ERADICATOR-365™** is 100% guaranteed to work as advertised — driving away pests without harmful poisons, traps or toxic mess. Full money back guarantee and refund if not completely satisfied with results. Order today with NO-RISK.
