## HAVE YOU EVER INVESTED IN GOLD?

Less Than 1/2 of One Percent of Americans Have Any Gold in Their Individual Retirement Accounts (IRA's), Yet Since 2001 Investors Who Have Diversified with a Self-Direct Gold IRA Have Realized a Profit Gain Of 460%.

*The good news is, when you convert an underperforming paper currency investment into GOLD, you haven't spent or lost your money...you have simply TRANSFERRED it to a precious metal currency which has experienced explosive growth in the past ten years.*

**That's The Power Of GOLD!**

**GOLD IS CONSIDERED BY MANY TOP ANALYSTS TO BE THE ULTIMATE ASSET!**

There's No Question About It...GOLD is King!

Which is why shrewd investors the world over are transferring portions of their lackluster performing (paper-currency) IRA's into this stable and profitable commodity. You can do the same right now...effortlessly...easily...starting with a toll-free phone call. And with the National Debt at *\$13 trillion and climbing*, doesn't

it make sense to investigate the enormous high-reward potential of a Self-Direct Gold IRA today?

YES, the extraordinary news is...you *CAN* transfer your current (paper-currency) IRA into a **Self-Direct GOLD IRA**. And right now, informed investors are already making the conversion and reaping huge profits, while others (perhaps YOU?) are currently stuck in an investment "whirlpool" — unaware of the existence of a "gold" IRA. Why? Because most individuals open their IRA at a bank or brokerage house where there is generally no mention of owning gold.

Please think. If today's predictions hold true, gold may bring as much as \$5,000 per ounce in the future, meaning a **\$50,000.00** investment could explode into **\$250,000.00!** Unfortunately, if conditions in the stock market and the world remain unchanged, that same \$50,000.00 invested in the bank may simply "tread water" during the next decade, with you growing 10 years older. Don't wait. Don't remain frozen in time. Call today and discover the GOLD-en goose...GOLD!

The upside potential appears significant and limitless, if you act now. Call today — this is a FREE CALL!

### The Performance Power of a GOLD IRA Speaks For Itself Just Look how an Investment in 2000 has Increased in Value:

YEAR	2000	2002	2004	2006	2009
VALUE	\$25,000	\$26,853	\$40,817	\$50,289	\$103,457

A robust 4-fold jump in just 9 years, based on a \$25,000 initial investment. While at the same time, the Dow, Nasdaq and S&P 500 remained flat. Why aren't you investing in GOLD right now?

**IMPORTANT:** The following trends usually weaken stocks and paper investments while generally causing the price of gold in Gold IRA's to rise:

- War
- Inflation
- High Oil and Gas Prices
- Stock and Bond Market Turmoil
- Weakness in the U.S. Dollar
- Budget Deficits
- Bank Failures
- Defaults on Loans
