AN ANTI-AGING MIRACLE...

## The Most Gorgeous, Youthful, Velvety-Smooth, Radiant Skin You Have Ever Seen!

Now available — a doctor-developed, non-surgical STEM CELL skin breakthrough that promises to give you ...

## The #1 Breakthrough In Anti-Aging History

Duplicell P199 utilizes the science of stem cell duplication to regenerate your skin from the inside-out.

**THE RESULT:** Ultimate beautification at any age. Perfectly-even skin texture that glows with baby-smoothness and youthful, line-free firmness.

## Try Duplicell P199 On A Risk-Free 30 Day Trial Basis

Pamper your face. Lavish your skin. Prove to yourself that this non-surgical formulation is the most magnificent compound you have ever applied.

Botox® is a temporary fix. It may last up to 4 months, give or take 30 days or so. After that, whatever improvement you may have experienced diminishes further and further, and you are back to square one. Botox® is painful, expensive, there is recovery time — and it is always risky. On the other hand, **Duplicell P199** is 100% safe, requires no prescription or doctor's visit, no needles, no injection, and it is not a drug. **Duplicell P199** is the *only* compound directly sold anywhere that contains the proprietary P199 peptide — clinically tested to increase stem cell markers by as much as 350%. The result is smooth, firm, taut, dewy skin and a YEARS YOUNGER LOOKING FACE. See for yourself. You be the judge. This formula is an anti-aging innovation!

## Why Endanger Your Face With Botox®

Risky...  
Painful...  
Expensive...  
Temporary...

**Welcome To Duplicell P199**  
And A New Standard of Phenomenal Skin Care  
Invented By The World's Foremost In-Utero Surgeon, Dr. Boris Petrikovsky, M.D., Ph.D.  
Introducing a revolutionary formula which does much *more* than just penetrate the surface of your skin with hydrating emollients and moisturizing chemicals. Duplicell P199 stimulates the *renewal* of your body's own STEM CELLS — **THIS IS THE KEY TO A YEARS YOUNGER-LOOKING FACE, GLOWING, RADIANT, SILKY-SMOOTH & LINE-FREE!**

Then — several years ago, a physician and surgeon by the name of Dr. Boris Petrikovsky, M.D., Ph.D. began some ground-breaking work. His expertise as a preeminent medical specialist was in *fetal surgery*, where he performed delicate operations on babies' while they were still in the womb, before they were even born. Dr. Petrikovsky's astonishing efforts were not only heroic and humanitarian — and in many cases, life-saving — but his discoveries regarding wound healing at the surgical site were equally provocative and compelling.

## Which Face Do YOU Want?

An OLDER FACE – Sags, Creases, Age Lines, Visible Wrinkles...  
Or A YOUTHFUL FACE – Soft, Smooth, Firm, Radiant...

## DUPLICELL P199 WILL TRANSFORM YOUR FACE – WE PROMISE!

What do you see when you look in the mirror? Your forehead, your eyes, the delicate skin *under* your eyes, your cheeks, your upper lip area, around the sides of your mouth, your chin, your jawline, your neck. Do you see someone who has *defied* age? Or do you see someone who is *showing* their age? Someone who looks perhaps even *older* than their true calendar birthdate. Someone with wrinkles and lines and damaged skin?

Today — thanks to a doctor's profound discovery, we bring landmark news about a miraculous breakthrough in the science of skin care. A revolutionary compound called **Duplicell P199**. There is nothing like this formula, anywhere. No competitive product exists . . . yet seeing is believing. Indeed, when you apply this remarkable compound to your face, you are not only putting an unprecedented, 100% safe, years-in-the-making formula on the surface of your skin — you are literally "feeding" your face from the inside-out. This is the key, the beauty advantage, and the unique *difference* of **Duplicell**

**Duplicell P199 works for men, too**  
When you look great, you feel great — confident, competitive, successful, ahead of the game. Duplicell P199 works magnificently for men and will give you a youthful, unwhinked appearance! 100% RISK-FREE: Try Duplicell P199 for 30 days. Prove how effective it is on your own skin. Duplicell P199 penetrates quickly and dies invisibly. No one will know you are wearing this compound, but your skin will take on a whole new look of youthful attractiveness.

Botox® cannot do what **Duplicell P199** does. Restylane® cannot do what **Duplicell P199** does. No cosmetic on any counter, anywhere in the world, can do what **Duplicell P199** does. Of course, actions speak louder than words, which is why you are invited with NO-RISK whatsoever to experience the wonders of this magnificent compound. **Duplicell P199** is every bit as good as we claim, and will help you look MANY YEARS YOUNGER, OR YOUR MONEY BACK!

Obviously, skin care technology will never be the same, because for the first time, a topical cream has been developed which works from the "inside-out," triggering nature's own magnificent tools — your very own STEM CELLS — to carry out an ongoing rejuvenation process. Duplicell P199 is not a drug or a dangerous chemical. It will not reddens or burn your skin. It will not pimp or dry your skin. When you apply Duplicell P199 to your face, you are utilizing Dr. Petrikovsky's breakthrough stem cell stimulating formula to help erase lines, wrinkles and skin damage that makes you look older, worn out, tired — even over the hill. Why "disadvantage" yourself? Groom your face with Duplicell P199 in just seconds a day. It is fast, easy — and will turn heads!

With this discovery, a paradigm shift in the way skin care will be modeled in the generations to come is now available today. **Duplicell P199** effectively incites stem cell production in the subcutaneous layers of your skin — daily application of this unique formula stimulates your body to naturally "turn on a switch," telling the millions of hibernating stem cells to start producing again as they did when you were 30 years of age or younger and your face was smooth, radiant, hydrated and devoid of wrinkles and ugly age lines.

It took many years of trial and error testing, but Dr. Petrikovsky, in conjunction with a major research and development company, was finally able to isolate and create a synthetic peptide that "copies" the chemical protein in Wharton Jelly and triggers the safe, efficient arousal of stem cells in adult skin — P199.

## A Youthful, Age-Defying Appearance... Look up to 11 Years Younger in 4 Weeks - Guaranteed!

The Discovery and Laboratory Bio-Synthesis of the "P199" Component Became a Biotechnological Reality, And It Has Now Been Incorporated Into The Duplicell P199 Formula.

SKIN CARE THERAPY HAS ENTERED AN ADVANCED NEW FRONTIER.

It took many years of trial and error testing, but Dr. Petrikovsky, in conjunction with a major research and development company, was finally able to isolate and create a synthetic peptide that "copies" the chemical protein in Wharton Jelly and triggers the safe, efficient arousal of stem cells in adult skin — P199.

Landmark research led to this electrifying breakthrough . . .

Here is some background: Wharton Jelly was named after the English physician and anatomist, Thomas Wharton, who first referenced this substance in his publication, "Description of the Glands of the Entire Body" published in 1656. As mentioned above, Wharton Jelly is a gelatinous material combining a mixture of water, gelatin, lipids, proteins and enzymes. Wharton Jelly is a rich source of STEM CELLS and other fetal specific proteins, fatty acids and phospholipids. Most interesting and noteworthy is that while only one out of every 200,000,000 (Two-Hundred-Million) cord blood cells is a stem cell . . . 1 in every 300 of Wharton Jelly cells is a STEM CELL.

After years of demonstrable case studies involving fetal surgeries, Dr. Petrikovsky theorized that within Wharton Jelly must be a component which concentrates the production of stem cells, thus leading to this marvelous healing power he observed in fetal skin. Moreover, if this component could be isolated and synthesized chemically, the same miraculous results witnessed in fetal

(continued at the top of the next page)

"When you pamper and trust your skin to Duplicell P199, we don't just promise you breathtaking results, we *guarantee* it" . . .

Dr. Boris Petrikovsky, M.D., Ph.D. (Fetal Physiology) and Chief of Maternal-Fetal Medicine, NY Downtown Hospital

## Your Face Will Be As Smooth And Soft As A Newborn Child's

It took a dramatic discovery by a world acclaimed surgeon to unlock the secret of flawless, line-free, naturally youthful skin at any age.

The story of Duplicell P199 started with a doctor's discovery that fetal surgeries heal with no sign of damage, not even the trace of a scar.

Dr. Boris Petrikovsky, M.D., Ph.D. whose distinguished credits are listed above, is one of only a handful of doctors worldwide who perform delicate "in-utero" surgeries — operating on fetuses within the womb and removing tumors and other growths from babies before birth.

In case after case, Dr. Petrikovsky found that fetal surgeries heal with NO SCARRING and no damage whatsoever — absolutely no sign of intrusion or disfigurement in the wound area. Subsequent research determined this miraculous healing capacity was due to an instant injury repair system incited by STEM CELLS, mostly contained in a gelatinous substance found within the umbilical cord. A substance known as WHARTON JELLY. Further studies revealed that a specific STEM CELL STIMULATING PROTEIN in Wharton Jelly ignites this entire process of fetal healing.

**The Protein Peptide in Wharton Jelly Responsible For This Flawless and Complete Fetal Skin Regeneration Has Been Isolated and Reproduced Clinically. It Is Called — P199.**

# WHY TELL ANYONE YOUR REAL AGE?

*You Are Going To Look So Smashing, So Youthful, So Beautiful . . .*

# NO ONE IS GOING TO BELIEVE HOW OLD YOU ARE ANYWAY!

- Not A Drug
- Not A Coverup
- Not A Filler
- No Injections
- No Scapels
- No Needles
- No Prescription Needed
- No Corrections

Try Duplicell P199 On Your Face **RISK-FREE** For 30 Days! Watch the indescribable transformation as your skin truly “youthifies” by years...

Duplicell P199 is NOT a drug, and this revolutionary formulation is NOT the result of harvesting embryonic stem cells!

- IMPORTANT NEWS -

**Look up to 11 Years Younger in Just 30 Days. THAT'S THE AMAZING POWER OF Duplicell P199 AND THE REJUVENESCENCE OF STEM-CELL STIMULATION.**

Apply Duplicell P199 daily to your face and watch trouble spots vanish. Those menoc-necks, frownys and saggs in your jaw's and .., the frownys and saggs in your jaw's and neck...incedibly, you are going to react in disbelief as Duplicell P199 turns back the clock on aging skin.

## Regardless Of Your Age...Transform Your Skin Starting Today!

Duplicell P199 Works Magically On The Most “Problematic” Areas Of Your Face.

Duplicell P199 Is Not A Coverup, Not A Temporary Wrinkle Smoother, Not A Temporary Wrinkle Smoother.

The skin around your lips is delicate, sensual, soft and naturally beautiful — yet it is problematic. As human beings, we are constantly communicating, talking, smiling, laughing. Opening and closing our mouths and exposing this sensitive skin tissue to constant expressive movements. As a result, as we age this area is susceptible to an increased loss of elasticity and the onset of deep furrows, creases, recesses, age lines and what is referred to as ‘gummy’ lips.

Duplicell P199 works wonderfully in this area, including massive stem cell invigoration to rejuvenate the texture and composition of skin in this most vulnerable part of our face. Duplicell P199 is not a simple skin cream. It is an advanced formulation clinically proven to include the crucial and duplication of stem cells — the very key to baby-smooth, silky, fine free skin at any age. Prove it to yourself...there is absolutely NO-RISK!

There is no shortage though, of products on counters in department stores everywhere that lure you with promise of ‘extended life’ and ‘rehydration’ and ‘fancy bottles’, exotic ingredients and celebrity endorsements. They all have one thing in common: They are treating your skin from the ‘outside-in’. They are trying to force moisture into your face. And they are stuck in the ideology of . . .

### REVERSE DAYS TECHNOLOGIES!

But today is a new day. And the revolutionary news comes from the ‘inside-out’! The truth is, once you try Duplicell P199, once you experience the difference, you are going to join others who hail this formula as a revolutionary technology. . . and who think of every other product and compound as virtually . . . obsolete!

Simply apply Duplicell P199 to your face and neck daily and watch what happens. It won't take long before you are blushing and staring at your skin in the mirror. In fact, in as little as 30 days, you are going to see the ‘younger’ version of you “beautifully” reappear. Duplicell P199 is so remarkable, we want you to try it RISK-FREE ON YOUR FACE FOR 30 DAYS! The truth is, once you try Duplicell P199, once you experience the difference, you are going to join others who hail this formula as a revolutionary technology. . . and who think of every other product and compound as virtually . . . obsolete!

Unfortunately, the technology of *yesterday* treated the skin as the start of the natural “aging process”, and sold you every manner of moisturizing cosmetic and every recipe of skin-softening emollients they could blend together in an attempt to pour water back into your skin. But *water* is an inorganic substance. Water dries. Water evaporates and disappears back into the atmosphere.

Let's be honest. Through your early 20's, your body is like a metabolic furnace. Firing on all pistons. And your skin is part of that perfect machine, with new cells constantly replacing the older cells, bringing you the freshness and fertility that appears to be endless. Then — when you reach age 25 and 30, things begin to change. You start to notice the first signs of skin “thingy” of sun and environmental damage, of a tiny spot or discoloration here and there. Of the first indication of an age line. A crease or furrow that was never evident before. A wrinkle.

And now, with the production of Duplicell P199, youthful-looking skin at any age is a reality. Indeed, Dr. Petrikovsky — through the discovery of ‘P199’ and its incorporation into the Duplicell P199 formulation — was able to successfully “turn on the switch” telling millions of backluster stem cells to start duplicating again, to come out of dormancy. To “turn on” again, from deep within the subcutaneous layers of the epidermis. From the “inside-out” . . . automatically initiated with each 100% safe application of this marvelous formulation.

the cause-result of wrinkling skin. Thus, their research was dedicated to finding a component which would trigger dormant stem cells to come out of hibernation. To start multiplying again as they did when skin was flawlessly youthful and satiny. To rejuvenate in the massive numbers that give skin its silky, line-free, supple appearance.

And now, with the production of Duplicell P199, youthful-looking skin at any age is a reality. Indeed, Dr. Petrikovsky — through the discovery of ‘P199’ and its incorporation into the Duplicell P199 formulation — was able to successfully “turn on the switch” telling millions of backluster stem cells to start duplicating again, to come out of dormancy. To “turn on” again, from deep within the subcutaneous layers of the epidermis. From the “inside-out” . . . automatically initiated with each 100% safe application of this marvelous formulation.

And now, with the production of Duplicell P199, youthful-looking skin at any age is a reality. Indeed, Dr. Petrikovsky and his colleagues, who are on the cutting-edge of stem cell technology and its role in skin repair, realized that the *slowing down* of stem cell duplication was the cause of skin cell aging. It was the *slowing down* of stem cell duplication, not the loss of stem cells, that was causing the skin to age. And this is why you can now rejoice in *rejuvenation*. And this is why you can now rejoice in *rejuvenation*. And this is why you can now rejoice in *rejuvenation*.

You are going to look spectacular!

Simply call the toll-free number on your Personal Reservation Form to try Duplicell P199 without risk and experience what others are jubilantly describing as a “Facelift Without Surgery!”

Words there are not enough to convince everyone to send for this state-of-the-art compound, however, we expect a rapid sellout of this character production cycle. Order today to avoid disappointment. Try Duplicell P199 RISK-FREE for 30 days. This formula is so remarkable, once you try it — it sells itself. Please take us up on our offer. There is nothing to lose. You are going to look spectacular!

BASE 240% INCREASE Stem Cell Marker Cytokeatin C-19

BASE 350% INCREASE Stem Cell Marker Cytokeatin C-15

CINICAL STUDIES HAVE CONCLUSIVELY DEMONSTRATED A SIGNIFICANT INCREASE IN STEM CELL MARKERS WHEN EXPOSED TO THE “P199” PROTEIN PEPTIDE FORMULATED INTO THE Duplicell P199 COMPOUND. THIS PROPRIETARY PEPTIDE, “P199” HAS PASSED ALL CASE STUDIES WITH FLYING COLORS. DR. PETRIKOVSKY’S CAPABILITY TO ISOLATE AND SYNTHESIZE “P199” IN A LABORATORY IS PROVEN. IT IS A BREAKTHROUGH.
