How would you like to look and feel *years* younger? How would you like to experience a major rejuvenation in all aspects of your physical and mental health, enabling you to live as though you just “shed” twenty years off your biological age?

Moreover, how would you like to regain the kind of stamina and energy you had, say, 20 years ago?

Since the beginning of time, mankind has been searching for the secret to longevity and everlasting youth. It seems at last, there has been a major breakthrough.

Human Growth Hormone (HGH)...The Key

Scientists have known about Human Growth Hormone (HGH) for more than *eighty years*. It is one of the many endocrine hormones (like estrogen and testosterone) which is produced naturally in our body, and is released by the pituitary gland in the brain. The purpose of HGH was thought for decades to be solely needed for stimulating the body to “grow” to normal

full adult size.

However, studies by top researchers, doctors and esteemed anti-aging specialists around the world pointed to a direct correlation between a *deficiency* in HGH production — which declines rapidly between the ages of 20 and 70 — and the process of *aging*, including weight gain, lower energy, wrinkled skin, loss of sex drive, lack of strength, thinning hair, reduced muscle mass, joint and bone problems, memory lapses, flexibility limitations, and so on.

The Challenge Of “Growing Younger”

Progressive scientists postulated if HGH levels could be increased somehow, that the aging process might be diminished, halted, prevented — even in some ways, *reversed*. Armed with this knowledge and backed by clinical evidence, an acclaimed heart surgeon went about the business of finding a solution. A solution which would lead to the discovery of the **ChronoHGH** compound...

NO \$20,000.00 PRICE TAG!

At Last! ChronoHGH has broken through the prohibitive “cost-barrier” to staying young and sexy!

NOW YOU DON'T HAVE TO BE “RICH” TO BE “YOUNG!”

Have you ever wondered why so many Hollywood celebrities and other wealthy individuals in the public eye never seem to age? Certainly they can afford personal trainers and top dieticians and beauty experts. And of course, they can discreetly go in for plastic surgery and various other *augmentation* procedures.

But what you don't hear about are the hush-hush visits to the doctor's office for *injections* of synthetic HGH — an artificial version of the actual Human Growth Hormone secreted by the pituitary gland.

\$20,000.00 Plus Per Year!

Although there is no way to know exactly *who* is receiving this prescription-only treatment, it is widely known that doctors have been providing these injections for many years in order to keep their prized “patients” young, sexy and beautiful.

What is also known is that the cost of this treatment is extremely high, averaging up to \$2,000.00 per month, \$24,000.00 per year, and is quite impractical unless you are very, very

wealthy.

Injections mean this is a *drug* therapy. There may be side effects. Careful monitoring of body functions is vital. Plus, results can take up to three months or more to show promise. This type of treatment is often inconvenient and time consuming — involving needles, doctor appointments, and waiting room delays.

Inexpensive, Drug-Free Alternative

Fortunately, there exists today a modern and safe natural alternative. Thanks to the cumulative efforts of anti-aging researchers worldwide, a revolutionary *drug-free* tablet is now available. It is based on studies demonstrating that specific amino acids, consumed orally, could result in dramatic and sustained spikes of

HGH production in the body. In other words, this non-invasive method utilizes the body's

own *natural* ability to stimulate the production of HGH (Human Growth Hormone), which is what Dr. Vagnini and his team were painstakingly and methodically looking for.

DID YOU KNOW:

In 1985, Growth Hormone was synthesized under the Reagan Orphan Drug Act in an effort to treat dwarfism. Scientists discovered something else: the “aging process” stopped, thus providing the first hint of the dynamic powers of this hormone.

To Order, Call Toll-Free 1-800-000-0000!

Progressive Anti-Aging Doctors and Medical Experts Widely Agree: Once Levels of HGH Are Restored, You Can Look and Feel ^{UP} ^{TO} 20 Years Younger!

Scientific studies and clinical research data from specialists around the world continued to propel anti-aging experts forward in the quest for a *natural* alternative to synthetic Human Growth Hormone (HGH).

What these medical professionals had discovered was reproducible and *incontrovertible*. Human Growth Hormone, which is released by the pituitary gland, is produced in great levels when we are young, and then — abruptly — decreases as we age. Sapping our bodies of as much as 75% of the circulating levels of HGH we had at age 20, and rendering virtually ALL men and women with a distinct HGH deficiency by age 40.

Halt The Aging Process By Stimulating HGH Production With ChronoHGH?

It became increasingly obvious to top scientists that the key to “reinvigorating” the body and retarding and diminishing the aging process was to stimulate Human Growth Hormone production.

Clinical studies continued to prove this evidentially again and again (see Table I). In fact, in test after test, the data consistently produced powerful documentation demonstrating that as levels of Growth Hormone *increased*, the effects of aging became less pronounced — as though the body's own biological clock was perhaps being *reversed* and turned back in time.

RESPECTED SPECIALISTS COMMENT . . .

From Lawrence Dornan, M.D., a member of the American Academy of Anti-Aging: “HGH (Human Growth Hormone) stops the aging process in the body and *reverses* many of the problems that are caused by aging, such as wrinkling skin, increased body fat, decreased muscle mass, increased cholesterol, decreased stamina and low energy.

TABLE I: Bar Graph below showing benefits of increased HGH in Dr. Daniel Rudman's 6-month trial study of men averaging 71 years of age and overweight.
(See details below summarizing Dr. Rudman's work.)

In a study conducted by Dr. Daniel Rudman, M.D., a renowned specialist in growth-hormone research, a group of men were given Human Growth Hormone replacement therapy to increase levels of HGH in their body over a six-month period. All of the men in the study were overweight, but were told not to alter any habits in terms of diet, exercise or smoking. The average age of the men was 71.

At the end of the six-month trial, published in the New England Journal of Medicine, the results were both astonishing and dramatic, showing an average gain of 8.8% in lean muscle mass, an increase in bone density, plus thicker, tauter skin — and most impressive — a **14% LOSS** of body fat. This was remarkable.

Dr. Rudman concluded: **“The effects of six months of human growth hormone on lean muscle mass and adipose tissue (body fat) were equivalent in magnitude to the changes incurred during 10–20 years of aging.”**

TABLE II: Results of clinical studies showing HGH increase from natural protein constituent compounds.
(Information beneath table explains impressive results.)

L-Arginine L-Lysine	+ 794%
Glutamine	+ 400%

The table above refers to the results of amino acid studies showing a significant increase in HGH production in the body. Conclusive evidence by Dr. Isidori of the Rome Medical Clinic demonstrated that a combination of amino acids consumed orally, including L-Arginine and L-Lysine, produced a 794% greater release of HGH.

In another study, published in the American Journal of Clinical Nutrition, it was shown that doses of the specific amino acid Glutamine may in fact increase levels of HGH by 400%.

Notable: ChronoHGH contains the correct proportions and combinations of these amino acids cited in the studies.

Years of studies and trials was finally rewarded when a paper published in the *American Journal of Clinical Nutrition* by Dr. Isidori of the Rome Medical Clinic noted that a combination of amino acids, when consumed orally, could result in significant sustained spikes of HGH production in the body.

The formularization of the *ChronoHGH* compound followed by the Dr. Vagnini-led consortium of anti-aging experts, and today, this compound may stand as the most powerful drug-free formula ever invented for helping to naturally restore Growth Hormone production to youthful levels.

ChronoHGH incorporates precise proportions of exact amino acids — including L-Arginine, L-Lysine, and Glutamine — which have been clinically proven to produce as much as a 794% increased release of HGH in the body. (See Table II on page 5.) This tablet is praised by virtually everyone who dreams of taking *years off their looks* and wants to feel sharper, younger, more energized and robust. Read This If You Are A “Baby Boomer” Or If You Are Looking Forward To An Active, Robust Retirement!

Please ask yourself, “how do you want to spend your golden years?” What kind of life do you envision for yourself? What type of pleasures do you hope to enjoy as you contemplate the “free time” ahead after all your years of hard work and sacrifice?

Perhaps you are looking forward to special moments with your grandchildren. Or traveling. Seeing the world. Pursuing your deepest passions. Enjoying daily rounds of golf. Brisk games of tennis. Gardening. Immersing yourself in cultural activities and events. Sailing. Scuba diving.

For many men and women, these dreams are sadly only going to be “*pipe dreams*.” Because their bodies, their joints, their flexibility, energy level, endurance — even their *minds* (their mental focus and clarity) — aren’t going to allow them to do the things they always planned on doing.

Today You Are At A Crossroads.

Looking directly ahead, down one road, is an older, weaker body. Rifled with chronic aches and pains. A fragile immune system. Lackluster energy. Impaired judgement. Constantly fatigued and washed out. Physically broken down.

Yet down the other road is an entirely different kind of person. Brimming with energy. Filled with life. Totally in charge of their faculties. With smooth, radiant youthful skin. Bright eyes. A razor-sharp mind. Firm, contoured body. A strong gait. Able to function all day without sitting down. Just like a young person. Healthy, vibrant, active, focused — feeling as though you are no more than 30 or 40 years old.

This *second person* is the individual *you* can hope to achieve if you decide to take advantage of the highly advanced, state-of-the-art *ChronoHGH* compound.

**Developed by Dr. Frederic J. Vagnini, M.D., The Board Certified
Physician Known As “The Anti-Aging Doctor.”**

ChronoHGH is for people who want to stay on top of their game. It is for men and women who want to look and feel *rejuvenated*, transformed — able to tackle projects with the energy of 20 years ago. It is for individuals who refuse to deteriorate and who NEVER want to “cave-in” to old age. For those who want to be physically and mentally active all the days of their life.

Perhaps you are a business-driven person. Maybe you spent many years developing your profession. Honing your skills. Improving your education. Investing large sums of money and time in becoming *who* you are. Do you want to risk the catastrophe of flushing it all down the drain? Losing your abilities? Falling apart? Becoming old and tottering, unstable and “out of it?” YOU DON’T HAVE TO!

The wonder of *ChronoHGH* is NOT in somehow “wishing” or “hoping” it to work. This is *not* a placebo or sugar pill. This compound is literally nature’s medicine of tomorrow — and it is here today.

ChronoHGH will help your body to naturally stimulate the production of HGH, which progressive scientists believe is the key to ageless youth and health. At last, this wonderful key is now in your hands!

Customer Testimonials Attest To The Remarkable Effectiveness Of The ChronoHGH Compound!

Customer Service,

I thank God for giving me your fantastic "ChronoHGH." I have been taking 2 bottles and getting excellent results. I felt that I have more energy and better sleep and I look younger. I really love it and I introduce (it) to others who all want to try it.

Because I left here to other country for two months so I didn't take it. Now I urgently reorder it. Hopefully I could take it right now to make up what I lost in these two months.

Thank you and God Bless you.

Mrs. Peggy G.

To Whom It May Concern:

Medically, I suffered a massive heart attack. During angioplasty for the heart attack I had a stroke which paralyzed my right side temporarily. Struggling through rehab I was given many "doctor pills" to no avail! My heart was failing! I couldn't exercise hard enough to get it pumping properly again. I was desperate! Barely 50 years old, I was headed for a heart machine, a transplant or worse — death!! I saw your ad and ordered 3 months worth.

Right away, I noticed a difference! More energy! My goodness, I was speed-walking uphill within 2 weeks! I was getting more hair on my head (my hairdresser noticed) and it was not gray! Best of all, within 6 months my heart function improved by 42%! The cardiologist could not explain this as I no longer took his "doctor pills."

I have taken ChronoHGH now and will NEVER stop. Thank you. You have given me back my quality life!

*Sincerely,
Linda D.*

QUESTIONS AND ANSWERS About Growing Younger And Staying Younger With The ChronoHGH Compound...

Please describe the development of **ChronoHGH** and what is in this formula?

Answer:

ChronoHGH is an all natural, state-of-the-art compound the result of scientific studies conducted at prestigious medical facilities and research laboratories around the world. The compound was formulated by a team of scientists, physicians, and anti-aging specialists led by Dr. Frederic J. Vagnini, M.D., FACS (Medical Director, Cardiovascular and Longevity Center). Dr. Vagnini's reputation is so distinguished among top longevity experts that he is referred to as "The Anti-Aging Doctor."

The **ChronoHGH** compound combines exact combinations and proportions of several amino acids demonstrated to significantly increase levels of HGH in the body (see page 5 of this journal). Other Growth Hormone stimulating constituents have also been added to fortify and strengthen the formula, including Colostrum, Phytosterol Complex, and a special Soy Phosphatidal blend which, in unique combination, has been designed into an easy-to-swallow, safe and effective tablet.

Tell me more about Human Growth Hormone. You indicate that our body produces less HGH as we age. How is this significant and what have scientists learned about HGH and aging?

Answer:

Human Growth Hormone (HGH) is an endocrine hormone which is produced by the pituitary gland in the brain. Levels of HGH are found in great abundance when we are young and in peak health. However, as we age, HGH production declines rapidly. It is estimated that the production of Human Growth Hormone declines by as much as 75% between the ages of 20 and 70, when there is only a trace amount left in our system.

This is significant because overwhelming evidence points to a direct correlation between "biological aging" and a reduction in our body's HGH production. In other words, as HGH levels DECREASE (and scientists widely believe that virtually EVERYONE over the age of 40 has a HGH deficiency), the effects of "aging" — including weight gain, wrinkled skin, loss of muscle mass, graying and thinning hair, lack of energy, suppressed immune system, reduced sex drive, memory problems, etc. — INCREASE. The good news is though, as doctors have found, if we can help the body to produce more HGH, we can actually reduce the effects of aging, turn back the clock and even potentially look years younger.

Can the **ChronoHGH** formula help stimulate a greater production of HGH in the body? What if my system has already run out of Human Growth Hormone (HGH) altogether?

Answer:

The body NEVER completely runs out of HGH, so the challenge is to simply produce more. Studies have shown that compounds called "secretagogues" can help stimulate the pituitary gland to release HGH naturally and safely, via oral supplements formulated using all-natural ingredients.

This is where the power of **ChronoHGH** comes in. Scientists have been able to show that natural compounds — the exact ones formulated in **ChronoHGH** — when taken properly, may actually produce dramatic and sustained spikes of HGH production in the body.

How and when will I know **ChronoHGH** is working for me? Is it safe?

Answer:

Within the very first month, you may expect increased energy, more pronounced stamina and endurance, and a better sleep pattern. As time goes on, many other welcome signs of a younger, stronger body and appearance may revolutionize your health. Younger skin, less wrinkles, sharper memory, heightened energy, sexual vitality, thicker hair, less aches and pains, stabilized blood pressure, improved heart rate, stronger immune system — medical tests have even shown a reduction in cholesterol and triglycerides as HGH levels increase.

ChronoHGH is formulated with the exact proportions of amino acids cited in research studies, combined with a specific blend of Growth Hormone-stimulating constituents. It is a 100% safe product and does not require a doctor's prescription. However, before beginning any health program or regimen, you should always consult with your physician to make sure you are in good overall health.

What are the potential significant benefits of the **ChronoHGH** compound in terms of how I will look, how I will feel, and my overall state of health?

Answer:

The results may be spectacular! In addressing the subject of Growth Hormone therapy, Dr. Ronald Klatz, who is a world-renowned expert on anti-aging, said "...For the first time in human history, we can intervene in the aging process, restore many aspects of youth, resist disease, substantially improve the quality of life, perhaps extend the life span itself. The 'Fountain of Youth' lies within the cells of each of us. All you need to do is release it."

By increasing the level of HGH in your body, many signs of aging may be halted — even suppressed — and those traits associated with youthful age and vitality may become significantly visible to you and may give you these electrifying benefits:

- Loss of Fat and Unwanted Pounds
- Restored Hair Growth
- Return of Natural Hair Color
- Fading of Wrinkles and Age Spots
- Increased Energy and Stamina
- Restored Sex Drive
- Improved Sleep
- Restored Bone and Muscle Mass
- Sharper Memory and Mental Clarity
- Boosted Immune System
- Strengthened Heart Muscle
- Greater Healing Capacity
- Control of Mood Swings

PICTURED HERE is Dr. Frederic J. Vagnini, M.D., himself reaping the benefits of ageless youth!

Dr. Vagnini, M.D., is an acclaimed surgeon and cardiovascular physician, an accomplished author and health educator, and an expert in the study of preventative medicine, anti-aging and longevity health.

After graduating from St. Louis University of Medicine in 1963, Dr. Vagnini began an extensive post doctorate internship and residency studying vascular, heart and lung surgery at the Downstate Medical Center, Brooklyn, New York, and Columbia Presbyterian Medical Center, New York, New York.

Upon completion of 8 years of training, Dr. Vagnini served as a Lieutenant Colonel in the U.S. Army, then entered into private practice on Long Island, New York, where he spent the next 25 years as a heart, lung and blood vessel surgeon. As a result of operating on thousands of individuals with heart and blood vessel disease, Dr. Vagnini became keenly interested in Preventative Medicine and Clinical Nutrition.

His research into health education and longevity combined with his vast experience in the areas of heart disease and personal nutrition led to frequent guest appearances on local and national radio and television and earned Dr. Vagnini the distinct reputation as "The Anti-Aging Doctor."

Dr. Vagnini has written hundreds of articles on Health Education and has been published in numerous scientific journals. He is currently the publisher of a monthly newsletter called *Cardiovascular Wellness* and hosts a live call-in radio show on WOR 710 AM. The show is called "The Heart Show" and airs from 4-5PM Sundays.

Dr. Vagnini is certified by the American Board of Surgery and the American Board of Thoracic Surgery. He is an active member of many prestigious medical societies and pioneered the research and development team which led to the discovery and production of the highly advanced ChronoHGH compound.

WHY DOES THE PRICELESS GIFT OF YOUTH HAVE TO BE WASTED ON THE YOUNG?

"It DOESN'T," says Dr. Vagnini, M.D., "because now YOU can turn back the clock on aging." "Physically...mentally...you can be younger, stronger, more vital, robust — totally rejuvenated — all thanks to ChronoHGH!"

As a physician and medical practitioner, and as a health educator, I am more excited today than I have ever been in my career.

That's because we have entered a new age of medicine, in my opinion. An era where the fear of growing old, of losing mental and physical faculties, of deteriorating and becoming dependent on others and unable to manage your own affairs, may be over forever.

ChronoHGH is truly a phenomenal product, and I believe, a breakthrough. Just imagine "leap-stepping" back in time by a *generation*, surging with the energy and vigor of someone 20 years younger. Seeing yourself, in your very own mirror, begin to regain the wonderful vibrancy of youth.

Your appearance. Skin texture. Yours, *Dr. Frederic J. Vagnini, M.D.*

Hair color. Immune system. Muscle tone. Flexibility. Sexual function. Bone density. Eyesight. Emotions. Endurance. Stability. Mental focus. Mood. EVERYTHING — *your entire body* — transforming into a *younger YOU*, as though "old age" is being washed away.

100% NATURAL FORMULA

ChronoHGH is not a drug and does not require a prescription. It works naturally within your body by promoting the restoration of GH (Growth Hormone) production to youthful levels, thereby stimulating a return to a younger condition. I personally guarantee your satisfaction, and can't wait for you to recapture the sparkle of youth. Are you ready? Then call toll-free right now to make it happen.

72 Year Old Woman Says 'No Gray Hair or Wrinkles!'

(Written testimony as received):

"My name is Lucy and I have been taking HGH for about a year. During that time I lost 13 pounds without any extra exercise regime. My bra cup size increased from a B to C. My energy level is great. Next month I will be 72 years old and am still employed full time as a bookkeeper and administrative assistant. On the week ends I do the grocery shopping and tend to my flower gardens. These are the extra things besides the normal cooking, cleaning and laundry chores. In a nutshell — I look and feel great. No gray hair or wrinkles."

☐ **YES,** Of Course I Want The Benefits Of ChronoHGH!

I want to feel like a million bucks — I want to be rejuvenated and physically stronger, more youthful and filled with energy and stamina. And I want to look years younger . . . with smoother skin, less appearance of wrinkles, thicker hair, improved muscle tone, a firmer more contoured physique, better sexual function, sharper mind, and all the wonderful benefits described inside this journal which promote vitality and help to prevent and slow the aging process.

ChronoHGH is *not* a vitamin pill, not a steroid, not a hormone and is definitely NOT a drug. It is a natural anti-aging formula developed by a team of scientists, physicians, and longevity experts led by the pre-eminent Dr. Frederic J. Vagnini, M.D., a cardiovascular surgeon and author who is renowned by colleagues as "The Anti-Aging Doctor." Try this formula today on a personal trial basis. There is No-Risk.
